"All-Purpose" EVERBLOOMING ROSE COLLECTION

Made up of eleven of the outstanding Roses of America. Each year we travel thousands of miles checking and observing the performance of different Roses. Varieties must have thoroughly proven themselves before being included in this group.

We believe this collection consists of 11 Roses which will give the average Rose grower complete satisfaction no matter what state he lives in. It is "All-Purpose" for the following reasons:

- **First**—Because of the wide range of colors. Practically every color known in the Rose world is represented in this collection.
- **Second**—Because they are hardy in all sections of the country. Even in far northern climates they do well if given average winter protection.
- **Third**—Because they are offered at a price which all America can afford. No premium prices are asked for these splendid Roses.

Fall Planting

PLEASE NOTE: - Fall is an ideal time to transplant roses in many sections of the country, however successful fall transplanting depends on the plants being thoroughly ripened by frosts before digging. For this reason we cannot make shipment of roses before the latter part of October. All Plants Will Bloom Next Summer.
